1. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES - CONTINUED

Classification of Restricted and Unrestricted Net Assets - continued:

The Codification requires Sophia's Heart Foundation, Inc to report gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is when a stipulated time restriction ends or purposed restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Temporarily restricted funds received and released from restrictions in the same period are reported as unrestricted support. At December 31, 2009, and for the year then ended, there were no permanent restrictions on assets.

Advertising:

Sophia's Heart Foundation, Inc. expenses advertising costs as incurred. Advertising costs for 2009 were \$15,486.

Depreciation:

It is the Foundation's policy to capitalize property and equipment over \$500. All purchases less than that amount are expenses in the period incurred. Donated property and equipment are reported as contributions at estimated fair value. Unless donor-restricted, all donated property and equipment are reported as increases in unrestricted net assets. Property and equipment are depreciated over estimated useful lives using the straight-line method. Useful lives range from 3 years for computer to 5 years for furniture, equipment and vehicles.

Concentration of Credit Risk:

Financial instruments that potentially subject Sophia's Heart Foundation, Inc. to concentrations of credit risk consist principally of cash on deposit. Cash deposits are primarily in financial institutions in Tennessee and at times, may exceed FDIC limits (\$250,000 as of December 31, 2009). The cash deposits did not exceeded federally insured amounts of December 31, 2009. Management does not believe that significant credit risk exists at December 31, 2009.

Inventories:

Inventories, which consist of merchandise for sale, are recorded at the lower of cost or market using the first-in, first-out basis of accounting.
